

Visitor Policy

We are taking precautionary measures to protect our staff and patients. We are implementing a NO VISITOR policy at this time. Patients are to come alone to their appointments. Exceptions are as follows:

OBGYN DEPT:

- OB patients having an ultrasound may have one adult accompany them to the ultrasound visit only.
- One parent/guardian with minor patient.

FAMILY PRACTICE DEPT:

- One parent/guardian with a minor patient. For 2 or more minors with appointments, both parents/guardians allowed.

BOTH OBGYN & FAMILY PRACTICE DEPTS:

- Patients with physical disabilities may have one adult accompany them.

Face coverings are required before entering building. Please note, this is not to inconvenience anyone. This is for the safety and protection of our patients and staff. It is essential that we stay healthy in order to provide needed care for our patients. This policy will be strictly enforced. Thank you for your understanding.

Our office will not tolerate rudeness or use of profanity towards our staff. You will be asked to leave our office and may be subject to dismissal from our practice.
